REPAIR SYSTEMS

SMALL TRIP HAZARDS CAN COST BIG BUCKS!

FIX 'EM QUICK & EASY.

WE WERE CALLED TO A SHOPPING CENTER WHERE A SMALL, HALF DOLLAR SIZE HOLE HAD JUST COST THE OWNER \$70,000 (THEY HAD A LOT MORE OF THEM TOO), BECAUSE A HIGH HEEL FOUND IT AND CAUSED AN ACCIDENT....AND THESE TRIP HAZARDS ARE EVERYWHERE YOU LOOK.

SOMEONE TRIED TO REPAIR THIS ONE, BUT IT DIDN'T WORK, AND WAS ALSO A REALLY EMBARRASSING EYE SORE..... UNTIL FLEKKRETE ARRIVED

See below for how to repairs these:

The First Step is to use FlexKrete!

NOW IT IS REPAIRED CORRECTLY, QUICKLY, NEATLY & FOR THE LONG-TERM BY **VINCE OLDS--CREATIVE CONKRETE REPAIR & COATINGS**. IT WAS TAPED OFF FOR STRAIGHT LINES, PRIMED, AND VOIDS FILLED.

THE FLAT SURFACES WERE BROADCAST, TAPE PULLED, AND OPENED TO TRAFFIC IN MINUTES. FLEXKRETE, BY DOT TESTS, HAS 99% RESILIENCY, IT ALSO DOESN'T EMBRITTLE LIKE OTHER MATERIALS, WON'T CRACK AND POP OUT, DOESN'T DISCOLOR AND DETERIORATE IN UV, SO IT BRINGS GREAT ECONOMY TO ALL.

THIS REPAIR WILL BE HERE, LOOKING GOOD, FOR MANY YEARS TO COME. AND WHETHER IT'S A SHOPPING CENTER, SIDEWALK, INDUSTRIAL PLANT, APARTMENT BLDG., WALK-WAY OR RESIDENCE, THE WORK CAUSED NO DISTURBANCE OF NOISE, DUST OR TIME DELAY. OPEN TO TRAFFIC IN A MATTER OF MINUTES.

"FlexKrete is Tuff, Resilient Stuff"
